# ALOHA

The Tea Farm was first imagined by a young college student who was driven by his love for tea, appreciation for quality and passion for the exotic. After traveling to the far corners of the world, and with a lot of hard work, The Tea Farm was launched online in the Fall of 2001. To this day, the Tea Farm family continues to grow and provide customers with products and services that tempt your taste buds and excite your palate.

When you buy your tea from The Tea Farm, you may choose from a large selection of teas from around the world, including top-producing regions such as India, China and Sri Lanka. Unlike grocery stores which only stock popular flavors, The Tea Farm offers over 300 different loose teas to choose from to meet your own personal preference. We pride ourselves in having a wide selection of teas for our customers, and continually research more teas to add to our collection. Pricing for our loose teas is based on the market value instead of a set price. This allows you to share in any market savings. Please contact us today, we would love to help you become part of our tea loving family.
